What is Lightcast Data?

Lightcast data is a hybrid dataset derived from official government sources such as the US Census Bureau, Bureau of Economic Analysis, and Bureau of Labor Statistics. Leveraging the unique strengths of each source, our data modeling team creates an authoritative dataset that captures more than 99% of all workers in the United States. This core offering is then enriched with data from online social profiles, resumés, and job postings to give you a complete view of the workforce.

Lightcast data is frequently cited in major publications such as *The Atlantic*, *Forbes*, *Harvard Business Review*, *The New York Times*, *The Wall Street Journal*, and *USA Today*.

Workforce Map

Executive Summary

Unknown Hiring Competition Over a Thin Supply of Regional Talent

Supply (Jobs)

Your area is not a hotspot for this kind of talent. The national average for an area this size is 56,612* employees, while there are 47,184 here.

Earnings Per Job

Earnings per job are above the national average. The national average salary for Food Services and Drinking Places in an area this size is \$30,039, while in your area it is \$43,237. Earnings per jobs is the total industry earnings divided by the number of jobs in the industry.

Demand (Job Postings)

Job postings analysis is not available for ZIP codes. Please select county level or higher to unlock this section.

*National average values are derived by taking the national value for Food Services and Drinking Places and scaling it down to account for the difference in overall workforce size between the nation and your area. In other words, the values represent the national average adjusted for region size.

Supply (Jobs)

Supply Is Lower Than the National Average

The regional vs. national average employment helps you understand if the supply of Food Services and Drinking Places is a strength or weakness for your area, and how it is changing relative to the nation. An average area of this size would have 56,612* employees, while there are 47,184 here. This lower than expected supply may make it more difficult to find candidates. The gap between expected and actual employment is projected to narrow over the next 5 years.

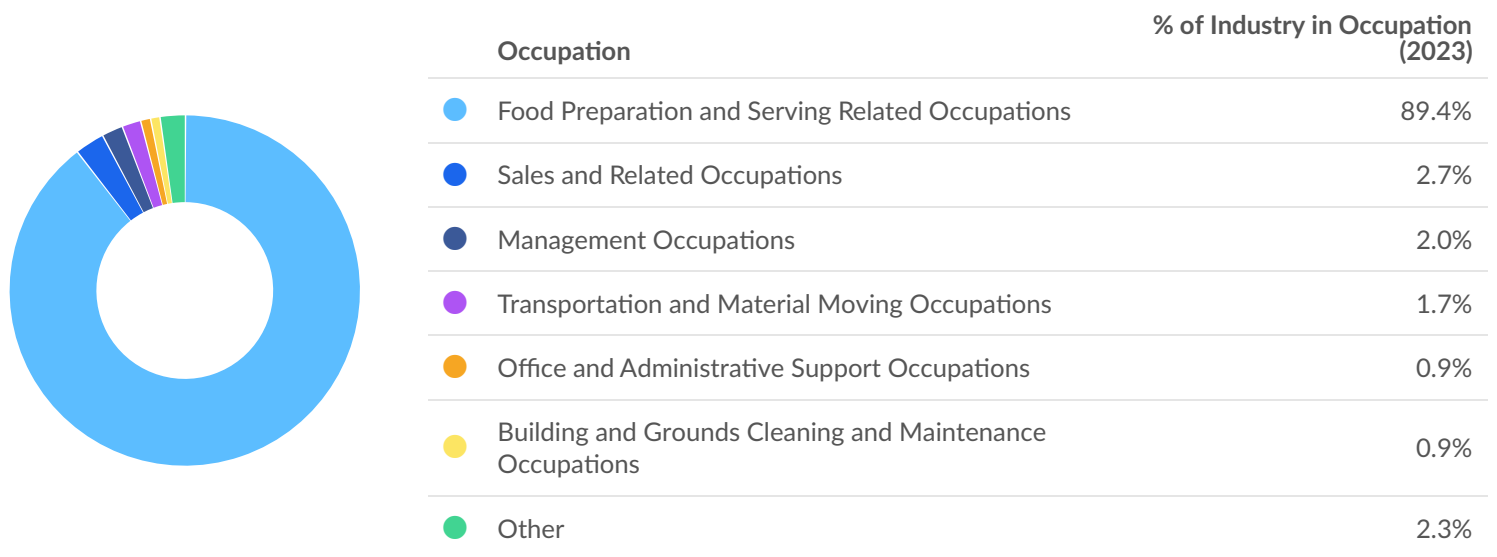

*National average values are derived by taking the national value for Food Services and Drinking Places and scaling it down to account for the difference in overall workforce size between the nation and your area. In other words, the values represent the national average adjusted for region size.

Unemployment Rate Trends

Unemployment data is not available for ZIP.

Demographic Details

Most Jobs are Found in the Food Preparation and Serving Related Occupations Industry Sector

Demand

Industry Gain and Drain

The table below analyzes the profiles of current and past people in your selected industries. The left column shows job transitions from other industries to your selected industries. The right column shows job transitions from your selected industries to other industries.

Please note, results are only available at the national level and the 6-digit NAICS level. Also your selection has been limited to 100 industries.
